Dear Prime Minister

I have read the 2 CENT TAX Website like2percenttax.com.au and I like it.
I am also following it on Facebook.

I do not understand why you and your Government are not taking it up for all of us including the millions living in poverty, and putting a stop to foreign ownership in Australia.

I can understand that if all the present tax is removed from wages and prices everything I buy will cost less and my present take-home-pay, savings and super will have 40% more spending value. With more spending and people costing far less to employ there will be more jobs. More spending more jobs and we can have a thriving, happy, healthy community – consequently less stress and crime.

I am convinced that you should urgently abandon the present tax system as it is pulling us all down. Australia is deep in debt and foreigners are buying up Australian property and businesses at prices we cannot afford.

The 2 CENT TAX will bring welcome relief to the poorest of our community and it will cost nothing and hurt nobody. Your Government will get all it needs to run the Country.

I am sharing this with my family and friends to get a groundswell of people asking for 2 CENT TAX to have you and your Government adopt it in 2016.

I am against selling or leasing Australia's public assets including to pay off debt. These debts are caused by our present tax system so we must get rid of it.

With 2 CENT TAX we all save and it does not cost anybody anything.

Yours truly

FRIENDS OF LIKE 2 CENT TAX
